

Acoustic Design in Schools from Spectrum Acoustic Consultants

Spectrum is one of the UK's leading firms of Acoustic Consultants with particular experience in the acoustic design of schools, colleges and other educational establishments

We offer:

- Initial (pre-appointment) scheme review to highlight any acoustically difficult areas with respect to BB93 requirements.
- Specific attention to highly sensitive areas – drama/music and performing arts.
- Acoustic survey work, to inform early decisions on site location, orientation, ventilation strategy and environmental concerns.
- Stage D and E acoustic reports, detailing cost effective strategies for resolving acoustic issues whilst having regard for non-acoustic disciplines.
- Production of specifications if needed for tender documentation.
- Reports to accompany planning applications, BREEAM assessments, and Building Control approval.
- Support during construction phase to advise on design changes and workmanship.
- Testing on site prior to handover if required by client or under BREEAM.
